PROFESSIONAL SUMMARY

Data Analyst specializing in business intelligence, predictive modeling, and data visualization. Passionate about transforming raw data into strategic insights that drive business growth and operational efficiency.

EDUCATION

Bachelor of Technology (Computer Science) Rishihood University,Newton School of Technology	2024 - 2028
Intermediate (Class XII) Shivaji Junior College	2023 - 2024
Matriculation (Class X) Indian Model School	2021 - 2022

PROJECTS

Swiggy-Analysis (Github)	April 2026
A collaborative group data analysis project on Swiggy food delivery platform data. The project involved data cleaning, exploratory data analysis (EDA), and visualization to identify key trends in customer ordering behavior, cuisine preferences, restaurant ratings, and delivery performance. Insights were derived to support business decision-making for restaurant partners and platform optimization.	
Retail-Sales (Github)	February 2026
This dataset contains detailed transactional sales records from a retail store environment. It was used to perform revenue analysis, discount evaluation, KPI development, and operational performance assessment. The dataset required cleaning and transformation before analytical use.	

SKILLS

- Languages: Python, SQL
- Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Visualization: Tableau, Power BI, Looker Studio
- Tools: Excel, Google Sheets
- Other: Statistics, Data Cleaning, EDA, Dashboarding
