ABOUT ME

A data analytics enthusiast with a strong focus on transforming raw datasets into actionable business insights. With hands-on experience in building end to end analytical workflows, I specialize in data cleaning, KPI development, and dashboard creation using tools like Excel, Google Sheets, and Tableau.

EDUCATION

Intermediate(Class XI) BDM International	05/2023 – 05/2024
Matriculation(Class X) BDM International	05/2020 – 05/2021
Btech(CS & AI) Rishihood University	08/2024 – Present

PROJECTS

Spotify Track Analysis Dashboard 🔗 Skills: Excel, Tableau, EDA	04/2026 – 04/2026
- Analyzed Spotify track data to identify key factors influencing song popularity, including genre trends. - Built an Tableau dashboard with KPI scorecards and visualizations for popularity and feature analysis. - Explored relationships between danceability, energy, and popularity using scatter plots to uncover patterns. - Derived insights on music trends and listener preferences to understand what drives successful tracks.	
Airbnb Price Optimization Dashboard 🔗 Skills: Google Sheets, EDA	02/2026 – 03/2026
- Analyzed Airbnb listings to optimize pricing and maximize revenue while maintaining optimal occupancy. - Built KPI-driven dashboards for pricing strategy, location analysis, and room type performance of Airbnb. - Identified high-performing price bands and revenue opportunities through profitability analysis. - Delivered actionable, data driven insights to help the hosts make informed and optimized pricing decisions.	
Swiggy Analysis Dashboard 🔗 Skills: Python, Tableau	04/2026 – 05/2026
- Analyzed Swiggy restaurant listings across 6 Indian metro cities to identify cuisine performance gaps. - Built KPI-driven dashboards for cuisine rating analysis, city demand benchmarking, and price-band performance to support data-backed restaurant investment decisions.	

TECHNICAL SKILLS

Languages: Python, SQL
Libraries: Pandas, NumPy, Matplotlib, Seaborn
Visualization: Tableau, Power BI, Looker Studio
Tools: Excel, Google Sheets
Other: Statistics, Data Cleaning, EDA, Dashboarding

CO-CURRICULAR & POSITION OF RESPONSIBILITY

- I was a **core committee member at Neutron 2025**, where I managed the workshop department end-to-end.
- I have hands-on experience in **event management**, having organized various events at both school and college levels.
- I have actively been involved in various **public speaking and anchoring** which strengthened my presentation skills.
- I am a committee member **of several clubs** where I contributed to collaborative initiatives.
